RE: Ace Computers Launches NETCENTS 2 Discussion Group on LinkedIn

CHICAGO---Ace Computers/Ace Technology Partners, one of the leading custom computer builders and resellers in the U.S., just announced that has taken the lead by launching a new LinkedIn discussion group for all those with an interest in the U.S. Air Force's NETCENTS 2 contract.

Ace Technology Partners' Vice President of Technology Solutions, Marc Fertik is the group's founder and facilitator. "Now that the contract is in place and orders are starting to come in, buyers are appreciating the fact that there is a forum where they can go for help," he explained. "The group is growing; we have several high profile members that are finding the discussions valuable. It's really a professional community of like-minded individuals that want to help each other out."

Technology products that Ace Technology Partners is authorized to sell through NETCENTS 2 include networking equipment, servers and storage, peripherals, multimedia, software, and identity management/biometric hardware and associated software.

To join the LinkedIn NETCENTS 2 Products discussion group, go to LinkedIn and key in "NETCENTS 2 Products" in the search box or [go directly](#).

The USAF's NETCENTS 2 (Network Centric Solutions 2) contract is a collection of acquisitions that replaced the original NETCENTS initiative with 7 separate contracts. The purpose of NETCENTS 2 is to provide the USAF, Department of Defense and other federal agencies with a vetted source for standardized networking equipment, supplies and associated services. NETCENTS 2 contracts are the USAF's main source of IT products, services and solutions. The total value of NETCENTS II, which spans 7 years, is more than \$24 billion.

Acknowledged as the best custom technology manufacturer, Ace Computers is a Woman-Owned Small Business custom technology systems manufacturer and reseller for the public sector as well as the commercial sector. Their channel partners include Intel, Supermicro, NVIDIA, Mellanox and Samsung among others. It has been an industry leader since 1983. In addition to some of the finest academic institutions in the U.S., long-term clients include the U.S. Department of Energy and the U.S. Department of Defense. Ace Computers builds custom technology with the same components that top manufacturers use without the premium price. Its principal, recognized industry expert John Samborski, is an alumnus of Intel's prestigious board of advisors. In addition to its Greater Chicago headquarters, Ace Computers has locations in New Jersey, Pennsylvania and Colorado. To contact Ace Computers, call 1-877-223-2667 or 1-847-952-6900 or visit <http://www.acecomputers.com/TopProducts.asp>
