Ace Technology Partners Announces Nexum on NETCENTS 2 Team

CHICAGO--- Ace Technology Partners/Ace Computers is working with networking and cybersecurity leader Nexum, Inc. to provide one-stop shopping for NETCENTS 2 buyers.

Ace Technology Partners CEO John Samborski said, "Nexum has an excellent reputation for providing reliable and innovative network and security solutions. We expect that this will be a very valuable partnership for both companies."

The U.S. Air Force's NETCENTS 2 (Network Centric Solutions 2) contract is a suite of acquisitions that provides federal agencies, including the USAF and Department of Defense, with a trusted source for standardized networking equipment, supplies and relevant services.

Through NETCENTS 2, Ace Technology Partners will provide servers and storage, networking equipment, peripherals, software, multimedia and identity management/biometric hardware and associated software---all meeting the company's standards for industry-leading quality, top performance and value.

Nexum delivers a comprehensive lineup of networking and cybersecurity solutions tailored to meet its customers' network and security needs, combining best-in-breed products from top security manufacturers with expert consulting, tech support and training through U.S.-based security engineers.

Nexum founder and CEO David Lesser said, "At Nexum, we take pride in working with best-in-breed manufacturers, like Ace Technology Partners, to meet our Federal customers' networking and cybersecurity needs."
