**RE: Ace Computers to Bring HPC Solutions to Wright-Patt Tech Expo**

CHICAGO--- Ace Computers, one of the leading custom computer builders and resellers in the U.S., just announced that it will be exhibiting HPCs (high powered computing solutions), such as its Raptor Mobile Server, at the Wright-Patterson Technology Expo on Wednesday, August 6 from 9:30 a.m. to 1:30 p.m.

The event will take place at the Hope Hotel, which is located on the Wright-Patterson Air Force Base just outside Dayton, Ohio. It has been held each year since 1995 and is the largest and most well-attended technology expo at one of the most strategic Air Force bases in the U.S. It is an excellent opportunity for military entities to fully leverage year-end spending with leading-edge, cost effective technology.

Ace Computers' CEO John Samborski said, "We look forward to showcasing our technology solutions at this show every year. This is a great opportunity for us to connect with old friends and demonstrate the benefits of working with us to those who aren't yet familiar with Ace Computers."

Samborski went on to explain that Ace Computers and its sister enterprise, Ace Technology Partners, have been serving the U.S. military for over 3 decades. "We've always had a very strong working relationship with all branches of the military and the U.S. Department of Defense," he said. One of the highlights was the NETCENTS 2 contract that Ace Technology Partners was recently awarded. In the first six months of this year, the company has processed over \$2 million in NETCENTS 2 orders.

The Wright-Patterson Technology Expo is an opportunity for the organizations and units structured under the 88th Air Base Wing, Air Force Material Command, NASIC, AFRL, AFIT and AMC and others to see the latest in emerging technologies, network with industry experts, brainstorm and formulate technology-related goals. Admission is free.

Acknowledged as the best custom technology manufacturer, Ace Computers is a Woman-Owned Small Business custom technology systems manufacturer and reseller for the public sector as well as the commercial sector. Their channel partners include Intel, Supermicro, NVIDIA, Mellanox and Samsung among others. It has been an industry leader since 1983. In addition to some of the finest academic institutions in the U.S., long-term clients include the U.S. Department of Energy and the U.S. Department of Defense. Ace Computers builds custom technology with the same components that top manufacturers use without the premium price. Its principal, recognized industry expert John Samborski, is an alumnus of Intel's prestigious board of advisors. In addition to its Greater Chicago headquarters, Ace Computers has locations in New Jersey, Pennsylvania and Colorado. To contact Ace Computers, call 1-877-223-2667 or 1-847-952-6900 or visit <http://www.acecomputers.com/TopProducts.asp>
