Powerful Desktops for Cybersecurity Set to be Showcased by Ace Technology Partners at Key Event

Ace Technology Partners will be exhibiting powerful Ace Computers desktops, Panasonic Toughbooks and Samsung Monitors at The Air Force Information Technology and Cyberpower Conference (AFITC) 2018 in Montgomery, Ala. Aug. 27 – 29. Ace Technology Partners will be at Booth 240.

CHICAGO (PRWEB) August 08, 2018 Ace Technology Partners, one of the most respected cybersecurity technology providers in the U.S., will be exhibiting powerful Ace Computers desktops, Panasonic Toughbooks and Samsung Monitors at The Air Force Information Technology and Cyberpower Conference (AFITC) 2018 in Montgomery, Ala. Aug. 27 – 29. Ace Technology Partners will be at Booth 240.

This premier Air Force cybersecurity event draws Air Force IT experts, prominent IT academics and some of America's top cybersecurity organizations, such as Ace Technology Partners.

Featured in Cybersecurity Magazine, ChannelPro, and Chicago's Daily Herald as an expert in the design and development of cybersecurity technology, Ace Technology Partners CEO John Samborski said, "Because we have enjoyed a close working relationship with the military for 35 years, this is a signature event for us. It is a chance to reconnect in person with existing clients and demonstrate our technology expertise in the area of cybersecurity. I encourage everyone to stop by our booth."

Ace Technology Partners is a top U.S. cybersecurity computer hardware provider. The company has long-term relationships with the U.S. State Dept., SEC, IRS, FBI, U.S. Army, Customs, state and local governments, N.Y. State Troopers, and HIDT (High Intensity Drug Trafficking) grant agencies among others.

AFITC offers a full slate of events and activities, with three days of speakers, expanded education/training opportunities and an exhibitor-driven tradeshow that addresses proactive means for better defending America from cyber attacks and advanced persistent threats.

The AFITC Conference is the venue where Air Force personnel and decision makers, as well as private industry IT and cybersecurity leaders meet to share and review strategies and explore the latest in cyber tools, software and hardware.

ISO 9001 Certified Ace Technology Partners is one of the most successful U.S. public sector solution providers designated a small business. The company currently holds the following contracts: SEWP V, NETCENTS 2, NASPO and more. As a woman-owned business, the company has been working with the public sector since 1983, delivering outstanding stability, credibility, and expertise. It has the proven ability to deliver the largest projects and the resources to finance them, along with an outstanding procurement track record and one of the highest acceptance/lowest return rates in the industry.

Long-term public sector clients, include the Department of Energy, Department of Defense and all U.S. Military Agencies. In addition to its Greater Chicago headquarters, Ace Technology Partners has locations in New York, New Jersey, Florida, Virginia, Nevada, Arizona, Colorado and Washington.
