Ace Computers Named Top North American Technology Solution Provider 14 Years Running Thursday, June 8th 2017, 2:15 pm CDT

Ace Computers just announced it has placed in the top half of CRN's 2017 Solution Provider 500 list. This is the 14th year the company has been on the list.

The fact that we have outlasted most of our early competitors and thrived for more than 34 years through the ups and downs of the industry signals that we have matured into a leadership position”

— Ace Computers CEO John Samborski

CHICAGO, U.S., June 8, 2017 Ace Computers just announced that it has placed well into the top half of CRN's 2017 Solution Provider 500 list. This is the 14th year the company has been included among the elite technology solution providers in North America.

Ace Computers CEO John Samborski said, “We are pleased to receive this recognition along with the top technology businesses in North America. We work hard to deliver high quality solutions that are strategically designed to meet each client's particular needs. The fact that we have outlasted the majority of our early competitors and have thrived for more than 34 years through the ups and downs of the industry sends a signal that we have matured into a leadership position.”

CRN is a property of The Channel Company. The Solution Provider 500 is CRN's annual ranking of the largest technology integrators, solution providers and IT consultants in North America by revenue. The list serves as the industry standard and is, in effect, a qualifier for doing business in the technology community.

The Channel Company CEO Robert Faletta said, “CRN's Solution Provider 500 list spotlights the North American IT channel partner organizations that have earned the highest revenue over the past year, providing a valuable resource to vendors looking for top solution providers to partner with. The companies on this year's list represent an incredible, combined revenue of over \$318 billion, a sum that attests to their success in staying ahead of rapidly changing market demands. We extend our sincerest congratulations to each of these top-performing solution providers and look forward to their future pursuits and successes.”

With the grand opening of a new office in Virginia and preparations for an ecommerce site underway, Ace Computers and its affiliate Ace Technology Partners are moving ahead quickly. “2017 is already an excellent year for us,” Samborski said. “We attribute it all to a loyal and ever-expanding client base and a team of dedicated employees that are among the best in the business.”

Leading custom computer builder and HPC cluster specialist, Ace Computers currently holds the following contracts: SEWP V, CCS-2, GSA, WSIPC, PEPPM, State of Wis., State of Ga.
