- Solutions for [federal, state, and local governments](#), [academic institutions](#), and [corporations](#)
- Products from top manufacturers at a fraction of the price
- Supplies and services that are made in America
- Founded in 1983

About Us:

Ace Computers is a technology solutions provider helping customers stay connected and achieve mission success with industry-leading computer products, supplies, and services that are made in America.

Since 1983, Ace Computers has been building high-quality technology products for federal, state, and local governments, academic institutions, and corporations using the same components as top manufacturers at a fraction of the price. From forensic workstations for the federal government, military, and law enforcement, to powerful supercomputers for educational research, to desktops for business use, Ace Computers builds IT solutions that deliver optimal performance and solve technology challenges.
