Associate Website UX Designer & Copywriter

Location: [Des Plaines/Remote](#)

Employment: [Full-time](#)

Ace Computers is seeking a full-time Associate Website UX Designer & Copywriter to design, build, and optimize web experiences that are clear, conversion-focused, and user-centered. In this role, you'll work within our WordPress website using the Elementor/Elementor Pro page builder, partnering with marketing and product stakeholders to turn ideas into wireframes, high-quality page builds, and concise, on-brand copy that guides users to action.

This position is ideal for an early-career professional who enjoys bridging words and design, thrives in hands-on page building in WordPress, and is eager to grow their expertise in UX, responsive design, and conversion optimization.

What You'll Do

Design & Build in WordPress (Elementor)

- Build, launch, and continuously improve website pages within WordPress using Elementor and Elementor Pro
- Develop and maintain custom templates and reusable sections in Elementor for scalability and consistency
- Implement layout and design customizations, including light CSS within the Elementor environment
- Manage and update content directly in WordPress while ensuring consistency across the site
- Ensure responsive, mobile-first design across breakpoints and devices
- Partner with developers for advanced WordPress or functionality enhancements when needed

UX & Visual Design

- Create wireframes and low- to high-fidelity prototypes to define page structure and user flow
- Apply strong visual design principles (typography, spacing, hierarchy, grids, imagery) within the constraints of WordPress/Elementor
- Advocate for UX best practices, including clarity, accessibility, and friction reduction
- Contribute to and help evolve page templates and component systems within Elementor

Copywriting & Optimization

- Write clear, concise, user-centered UX copy (headlines, CTAs, microcopy, form labels, error states)
- Collaborate on landing page strategy, messaging, and optimization initiatives within the WordPress environment

- Develop and test A/B concepts for improving conversion and engagement
- Use analytics and user feedback to iterate on page performance and content effectiveness

What You'll Bring

- 1–3 years of experience in UX design, web design, copywriting, or a related field (internships included)
- Hands-on experience working with WordPress and Elementor/Elementor Pro
- Experience creating and managing templates and reusable sections in Elementor
- Familiarity with layout customization and light CSS within a WordPress page builder
- Strong understanding of responsive and mobile-first design
- Experience creating wireframes and prototypes (Figma, Adobe XD, or similar)
- Solid grasp of visual design principles (typography, spacing, hierarchy)
- Knowledge of UX best practices (usability, accessibility, readability)
- Excellent written communication skills and attention to detail
- Ability to manage multiple projects and meet deadlines in a collaborative environment

Nice to Have

- Understanding of WordPress CMS structure, including pages, posts, themes, and plugins
- Exposure to SEO fundamentals (heading structure, metadata, internal linking within WordPress)
- Experience with analytics and testing tools (Google Analytics, Hotjar, or similar)
- Familiarity with additional WordPress plugins or integrations
- Interest in content strategy, UX writing systems, or design systems
- Portfolio showcasing UX writing and WordPress/Elementor page builds

What You'll Get

- Opportunity to own and contribute to high-impact web experiences in a WordPress-based environment
- Hands-on experience improving conversion and engagement through UX design and content
- Collaboration with cross-functional teams including marketing, product, and development
- Professional growth in UX design, WordPress development, and content strategy
- Exposure to scalable design processes, templates, and performance optimization

Qualifications

- Bachelor's degree in UX/UI, HCI, Design, Communications, Marketing, English, or related field (or equivalent experience)
- Authorized to work in the U.S.
